

Medicaid Redetermination Information for CountyCare Network Providers

(312) 864-8200 | www.countycare.com

Dear Provider

CountyCare is giving you a list of members assigned to your organization who received redetermination (rede) notification from the State this month.

The last date of coverage is listed in the member file.

Be sure the redetermination process is completed by the deadline printed on the member's letter to avoid suspension, and possible cancelation, of coverage.

Please review the materials in this presentation to further understand the rede process, what CountyCare is doing, and suggestions for what you can do to help.

Questions? Call us at (312) 864-8200.

Thank you for your help in this important process.

Redetermination Basics

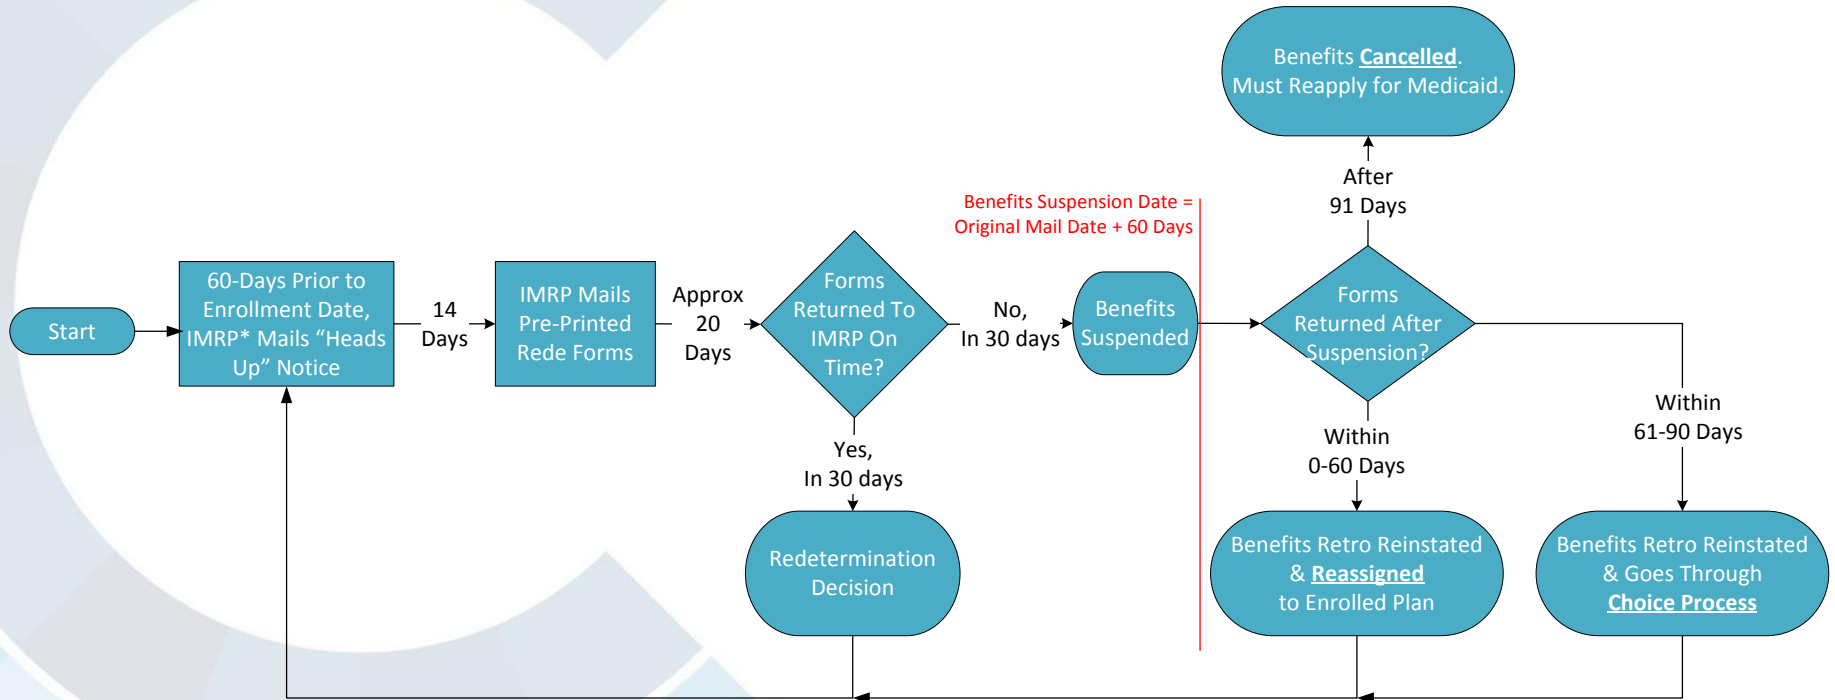

- Redetermination (rede) is a review of eligibility for Medicaid benefits
 - Eligibility for Medicaid and All Kids must be reviewed at least once a year.
 - The state must decide whether a client is still eligible to keep getting benefits.
- Through the Illinois Medicaid Redetermination Project (IMRP), the state decides whether clients continue to qualify for Medicaid or All Kids.
 - IMRP handles redeterminations or reviews for clients who are receiving Medicaid.
 - IMRP does not usually handle redeterminations for Medicaid or All Kids clients who also get SNAP (food stamps) or cash assistance.
