## **Advanced Imaging and Cardiology Authorization Changes**

CountyCare has partnered with Evolent (formerly National Imaging Associates, Inc.), to implement a [new prior authorization program](#). Evolent's Advanced Imaging and Cardiology Solutions programs are intended to help providers effectively deliver quality patient care.

**Effective March 1, 2025**, advanced imaging and diagnostic cardiology procedures will require prior authorization through Evolent prior to being rendered in an outpatient setting. These prior authorization management programs apply to your **CountyCare Medicaid members of all ages**.

Evolent uses clinical criteria based on nationally recognized guidelines to promote evidence-based practices. Providers may begin contacting Evolent on March 1, 2025, to seek prior authorization for procedures scheduled on or after March 1, 2025.

**These programs apply to all specialties for the following non-emergent outpatient advanced imaging and diagnostic cardiology services:**

- CT/CTA
- MRI/MRA
- PET Scan
- MUGA Scan
- Nuclear Stress Test
- Echocardiography

Prior authorization requests can be submitted to Evolent:

- Via Evolent provider portal at [RadMD.com](#)
- Via telephone at **1-800-424-1732**. Staff is available Monday - Friday from 7:00 a.m. to 7:00 p.m. CST.

[RadMD](#) offers providers the ability to:

- Request prior authorization and verify authorization status.
- Upload required clinical documentation and view submitted files.
- Access clinical guidelines, checklists and additional provider resources and tools.
- Identify the dedicated Evolent Provider Solutions Manager to use as a direct point-of-contact for any issues or questions.

CountyCare approvals issued before March 1, 2025, are effective until the authorization end date. Upon expiration, authorization requests must be submitted to Evolent. For services/treatment that did not require an authorization prior to March 1, 2025, an authorization may be required from Evolent for service/treatment dates on and after March 1, 2025.

CountyCare is proud to be your healthcare partner. If you frequently request advanced imaging and/or diagnostic cardiology services and are new to this process, please register for a training session.
