## INTRODUCTION

We are pleased to provide the CountyCare Health Plan Medicaid Formulary as a useful reference and information tool. This document can help medical providers and members understand which drugs are covered. The Formulary can be found on our website at [countycare.com](http://countycare.com). Also located on the website is a Preferred Drug List Search Tool, which can be utilized to look-up drug information including formulary status and utilization management tools applied to the drug.

The drugs represented have been reviewed by a National Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The document is reflective of current medical practice as of the date of review. The information contained in this document and its appendices are provided solely for the convenience of understanding which drugs are covered. We do not warrant or assure accuracy of such information, nor is it intended to be comprehensive in nature. This document is not intended to be a substitute for the knowledge, expertise, skill, and judgement of the medical provider in his or her choice of prescription drugs. All the information in the document is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber.

The document is subject to state-specific regulations and rules, including but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable. We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

## PREFACE

The document is organized by sections. Each section is divided by therapeutic class primarily defined by mechanism of action. Products are listed by generic name and brand name. The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., SYNTHROID) and generic drugs are listed in lower-case italics (e.g., *levothyroxine*).

Unless the cited drug is available as an injectable or an exception is specifically noted, generally, all applicable dosage forms and strengths of the drug cited are included in the document.

## FORMULARY (PHARMACEUTICAL) MANAGEMENT PROCEDURES

The Health Plan Pharmacy Department annually and after updates, communicates changes to members, prescribing practitioners, and pharmacies. Updates include lists of pharmaceutical restrictions and preferences, as well as explanations of limits and quotas.

## **PHARMACY AND THERAPEUTICS (P&T) COMMITTEE**

The services of an independent National Pharmacy and Therapeutics Committee (“P&T Committee”) are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an external advisory body of clinical professionals from across the United States. The P&T Committee voting members include physicians, pharmacists, a pharmacoeconomist and a medical ethicist, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

## **GENERIC SUBSTITUTION**

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand name product. In most instances, a brand name drug for which a generic product becomes available will become non-formulary, with the generic product covered in its place, upon release of the generic product onto the market. However, the document is subject to state specific regulations and rules regarding generic substitution and mandatory generic rules apply where appropriate.

Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration (FDA) for safety and effectiveness and are manufactured under the same strict standards that apply to brand name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand name drug (bioequivalence). Generics may be different from the brand in size, color, and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand name drug.
- Manufactured in the same strength and dosage form as the brand name drugs.

When a generic drug is substituted for a brand name drug, you can expect the generic to product the same clinical effect and safety profile as the brand name drug (therapeutic equivalence).

## **AGE LIMIT (AGE)**

Age limits are used to make certain that medications are used according to the FDA’s recommendation for the use of the medication dependent on the age of the patient.

## **BRAND MEDICATION (CAPITALIZED LETTERS)**

A drug sold by a drug company under a specific name or trademark and is protected by a patent.

## **GENERIC MEDICATION (lower case italicized letters)**

A generic drug is a medication created to be the same as an already marketed brand-name drug in dosage form, safety, strength, route of administration, quality, performance characteristics, and intended use. Generally, generic medications often cost less. You may be required to use a generic version of a drug if one is available.

## **OVER THE COUNTER MEDICATIONS (OTC)**

Over-the-Counter medications can be purchased without a prescription. CountyCare covers some over-the-counter medications on our Formulary at no cost to you. You will need a prescription from your provider to have the over-the counter medication covered.

## **PRIOR AUTHORIZATION (PA)**

Requires the approval of certain medications to ensure appropriateness, based on clinical evidence. This additional step guarantees that the prescription is medically necessary when a clinically effective less expensive option is available. The PA will be approved if the patient's condition meets the necessary requirements.

## **QUANTITY LIMIT (QL)**

Quantity limits are designed to limit the use of selected drugs for quality and safety reasons. The quantity limit for FDA supports each drug recommended dosing guidelines. An exception request is required to exceed quantity limits.

## **SPECIALTY DRUG (SP)**

Specialty drugs are often high-cost and/or require special handling to treat complex conditions.

## **STEP THERAPY (ST)**

Step Therapy is the practice of beginning drug therapy for a medical condition with drugs considered first-line for safety and cost effectiveness, then progressing to other drugs that may have more side effects or are more costly.

## **SPECIALTY PLAN DESIGN**

Specialty Pharmacy Management is our utilization program that helps ensure appropriate utilization of specialty medications based on currently accepted evidence-based medicine guidelines. The utilization management program is available for all therapeutic areas dispensed by our specialty pharmacies. Specialty Pharmacy Management is designed to help ensure safety and efficacy while preventing off-guideline utilization.

## PLAN DESIGN

The document represents a closed formulary plan design. The medications listed on the document are covered by the plan as represented at no cost to you. Certain medications on the list are covered if utilization management criteria are met (i.e., Step Therapy, Prior authorization, Quantity Limits, etc.); requests for use of such medication outside of their listed criteria will be reviewed for medical necessity. If a medication is not listed on the document, a formulary exception may be requested for coverage. Additional information and directions can be found on our website at [countycare.com](https://countycare.com). Medical necessity or formulary exception requests will be reviewed based on drug specific prior authorization criteria or standard non-formulary prescription request criteria.

| <i>colistimethate sodium</i> (generic of COLY-MYCIN M) solr 150mg | Preferred |  |
| COLY-MYCIN M SOLR 150MG                                           | Preferred |  |
| <i>polymyxin b sulfate</i> solr 500000unit                        | Preferred |  |

### **URINARY ANTI-INFECTIVES - DRUGS TO TREAT URINARY TRACT INFECTIONS**

|                                                                              |           |                         |
|------------------------------------------------------------------------------|-----------|-------------------------|
| <i>fosfomycin tromethamine</i> pack 3gm                                      | Preferred |                         |
| <i>methenamine hippurate</i> (generic of HIPREX) tabs 1gm                    | Preferred |                         |
| <i>methenamine mandelate</i> tabs .5gm, 1gm                                  | Preferred |                         |
| <i>nitrofurantoin susp</i> 25mg/5ml                                          | Preferred |                         |
| NITROFURANTOIN SUSP 50MG/5ML                                                 | Preferred |                         |
| <i>nitrofurantoin macrocrystal</i> (generic of MACRODANTIN) caps 25mg        | Preferred | QL (4 caps every 1 day) |
| <i>nitrofurantoin macrocrystal</i> (generic of MACRODANTIN) caps 50mg, 100mg | Preferred |                         |
| <i>nitrofurantoin monohyd macro</i> (generic of MACROBID) caps 100mg         | Preferred |                         |

### **ANTIANGINAL AGENTS - DRUGS TO TREAT HEART CONDITIONS**

#### **NITRATES**

|                                                                                      |           |  |
|--------------------------------------------------------------------------------------|-----------|--|
| <i>isosorbide dinitrate</i> (generic of ISORDIL TITRADOSE) tabs 5mg, 40mg            | Preferred |  |
| <i>isosorbide dinitrate</i> tabs 10mg, 20mg, 30mg                                    | Preferred |  |
| ISOSORBIDE MONONITRATE TABS 10MG, 20MG                                               | Preferred |  |
| <i>isosorbide mononitrate</i> tb24 30mg, 60mg, 120mg                                 | Preferred |  |
| NITRO-BID OINT 2%                                                                    | Preferred |  |
| <i>nitroglycerin cpcr</i> 2.5mg, 6.5mg, 9mg; pt24 .1mg/hr, .2mg/hr, .4mg/hr, .6mg/hr | Preferred |  |
| <i>nitroglycerin</i> (generic of NITROSTAT) subl .3mg, .4mg, .6mg                    | Preferred |  |

### **ANTIANXIETY AGENTS - DRUGS TO TREAT ANXIETY**

#### **ANTIANXIETY AGENTS - MISC.**

|                                                             |           |  |
|-------------------------------------------------------------|-----------|--|
| <i>buspirone hcl</i> tabs 5mg, 7.5mg, 10mg, 15mg, 30mg      | Preferred |  |
| <i>hydroxyzine hcl</i> syrp 10mg/5ml; tabs 10mg, 25mg, 50mg | Preferred |  |
| <i>hydroxyzine pamoate</i> caps 25mg, 50mg, 100mg           | Preferred |  |

#### **BENZODIAZEPINES**

|                                                                 |           |    |
|-----------------------------------------------------------------|-----------|----|
| <i>alprazolam</i> (generic of XANAX) tabs .25mg, .5mg, 1mg, 2mg | Preferred | PA |
| ALPRAZOLAM INTENSOL CONC 1MG/ML                                 | Preferred | PA |
| ATIVAN SOLN 2MG/ML                                              | Preferred | PA |
| <i>chlordiazepoxide hcl</i> caps 5mg, 10mg, 25mg                | Preferred | PA |

| Drug Name                                                      | Drug Tier | Requirements/Limits |
|----------------------------------------------------------------|-----------|---------------------|
| clorazepate dipotassium tabs 3.75mg, 7.5mg, 15mg               | Preferred | PA                  |
| diazepam conc 5mg/ml; soln 5mg/5ml                             | Preferred | PA                  |
| diazepam (generic of VALIUM) tabs 2mg, 5mg, 10mg               | Preferred | PA                  |
| lorazepam conc 2mg/ml                                          | Preferred | PA                  |
| lorazepam (generic of ATIVAN) soln 2mg/ml; tabs .5mg, 1mg, 2mg | Preferred | PA                  |
| oxazepam caps 10mg, 15mg, 30mg                                 | Preferred | PA                  |

## ANTIARRHYTHMICS - DRUGS TO TREAT HEART CONDITIONS

### ANTIARRHYTHMICS TYPE I-A

|                                                               |           |  |
|---------------------------------------------------------------|-----------|--|
| disopyramide phosphate (generic of NORPACE) caps 100mg, 150mg | Preferred |  |
| NORPACE CR CP12 100MG, 150MG                                  | Preferred |  |
| quinidine gluconate tbc 324mg                                 | Preferred |  |
| quinidine sulfate tabs 200mg, 300mg                           | Preferred |  |

### ANTIARRHYTHMICS TYPE I-B

|                                         |           |  |
|-----------------------------------------|-----------|--|
| mexiletine hcl caps 150mg, 200mg, 250mg | Preferred |  |
|-----------------------------------------|-----------|--|

### ANTIARRHYTHMICS TYPE I-C

|                                            |           |  |
|--------------------------------------------|-----------|--|
| flecainide acetate tabs 50mg, 100mg, 150mg | Preferred |  |
| propafenone hcl tabs 150mg, 225mg, 300mg   | Preferred |  |

### ANTIARRHYTHMICS TYPE III

|                                                             |           |    |
|-------------------------------------------------------------|-----------|----|
| amiodarone hcl tabs 100mg, 200mg, 400mg                     | Preferred |    |
| dofetilide (generic of TIKOSYN) caps 125mcg, 250mcg, 500mcg | Preferred | SP |

## ANTIASTHMATIC AND BRONCHODILATOR AGENTS - DRUGS TO TREAT ASTHMA AND CHRONIC OBSTRUCTIVE PULMONARY DISEASE

### ANTI-INFLAMMATORY AGENTS

|                               |           |  |
|-------------------------------|-----------|--|
| cromolyn sodium nebu 20mg/2ml | Preferred |  |
|-------------------------------|-----------|--|

### ANTIASTHMATIC - MONOCLONAL ANTIBODIES

|                                                                                               |              |                                      |
